NASHVILLE REEKLING WITH BOLSHEVISM

Governor Says Only Ignorant
Declare Capital City Clean
American City.

NASHVILLE, Tenn., Nov. 15.—In an address here to a meeting of representatives of the commercial bodies of the state last night, Gov. H. Roberts said that the people of the United States were sitting on a seething volcano, ignorant of or indifferent to their peril.

Gov. Roberts declared that Nashville was honeycombed with Bolshevism and that statements that "Nashville is the cleanest city in the United States so far as the spirit of anarchy is concerned" showed ignorance of conditions. He said he was in possession of photographic copies of letters written by W. L. Foster, furnished by the United States attorney-general, and these letters showed a clearly outlined plan to bring on revolution against constituted authority by sowing the seeds of discontent among the industrial workers, by exciting local strikes which would pave the way for general strikes, and then the great revolution, which would put the proletariat in charge of the industries of the country and ultimately the government.

The governor declared these plans were being developed upon scheduled time and with amazing exactitude. "The fundamental mistake of the world today," said Gov. Roberts, "is the failure to meet this menace squarely."

JACKSON TO HAVE THREE WAYS OF SELLING SEALS

JACKSON, Miss., Nov. 15. (Sp.)—Three methods of selling Red Cross Christmas seals Dec. 1-15 are announced by the headquarters office of the campaign here.

A small army of white-clad young women will report for duty Dec. 1 and will take their places behind special, designed booths in hotel lobbies, banks, groceries, postoffices and other public places to dispose of 25,000,000 seals. Mississippi's quota, at one cent each. Unusually attractive are the booths to be used by these workers. A large "Santa Claus" made of heavy cardboard forms one side of the booth and a small counter also of cardboard completes the booth.

"Health Bonds" attractively printed have been made to give large concerns which do not care for the stamps and wish merely to make a contribution toward the fight against tuberculosis. For each month a coupon is given telling of the various uses to which the money will be put. This idea is declared to be one of the most novel ever seen, and is very popular.

For business houses which do not like the idea of employees using time to stamp all outgoing mail with Christmas seals, envelopes with the seal already printed on the backs have been devised.

State headquarters here will be placed to give further information.

DOCTORS FIND REMEDY FOR COLDS AND FLU

Calotabs, the New Nauseless
Calomel Tablets, Cut Short
Colds and May Prevent Flu
by Keeping Liver Active.

Physicians have learned from experience, during the epidemic of influenza, that one of the most important factors in the prevention of flu and pneumonia is to keep the liver active so that the digestive organs may be in perfect working order and the system thereby enabled to throw off colds, check colds, and resist serious complications. For this purpose they have found that the new nausealess calomel tablets called Calotabs, are far more effective even than the old style calomel, which was formerly the universal favorite, as Calotabs do not weaken the patient, nor interfere with the appetite and digestion.

At the first sign of a cold or sore throat, doctors recommend one Calotab at bed time with a swallow of water—that's all. No salts, no nausea, nor the slightest interference with your diet, pleasure, or work. Next morning you wake up feeling fine, your liver is active, your appetite is keen for a good breakfast.

For your protection Calotabs are sold only in original sealed packages, price thirty-five cents. All druggists recommend and guarantee Calotabs. Your money back if you are not delighted with them.
